## What is a Mobile Token?

It is an application that generates unique codes, with which you, as a client of the **MyBRD Net** application, can use to access the service and sign transactions. These codes are valid for a limited period of time.

This device is integrated in the **MyBRD Mobile** application and may be **used free of charge** even if you are not a user of the Mobile banking service.

It is important to know that, in order to use the mobile token, you must install the **MyBRD Mobile** application on a compatible smartphone or tablet.

The smartphone application may be downloaded and installed for free and is available on the following operating systems:

- **Android, at least version 2.1**
- **iOS, at least version 4.3**
- **Windows Phone, at least version 7.5**

The tablet application may be downloaded and installed for free and is available on the following operating systems:

- **Android, at least version 2.1**
- **iOS, at least version 4.3**

## First use of the mobile Token. In a few easy steps.

### STEP 1

Download free of charge the **MyBRD Mobile** application specific to your type of phone or tablet. According to the operating used by your phone, the application can be downloaded from:

- **Google Play for the Android operating system**
- **AppStore for the iOS operating system**
- **Windows Phone Store for the Windows Phone operating system.**

### STEP 2

Launch the **MyBRD Mobile** application

**STEP 3**

Select **“Activate Mobile Token”**

**STEP 4**

You will receive the activation elements from us, namely:

- **The Activation ID** provided by us when subscribing to the Internet banking service
- **The Activation code** received by SMS to the number offered at the Bank

**STEP 5**

Enter the ID and activation code in the dedicated fields

**STEP 6**

Enter the desired PIN number and confirm it

Afterwards, this code will be enough to use the mobile token. The **PIN** number may consist of only **6 digits**.

### 3 How to use the mobile token

**STEP 1**Launch the **MyBRD Mobile** application**STEP 2**From the start screen select  
“**Access MyBRD Mobile Token**”**STEP 3**Enter the 6-digit PIN number set  
at the mobile token activation

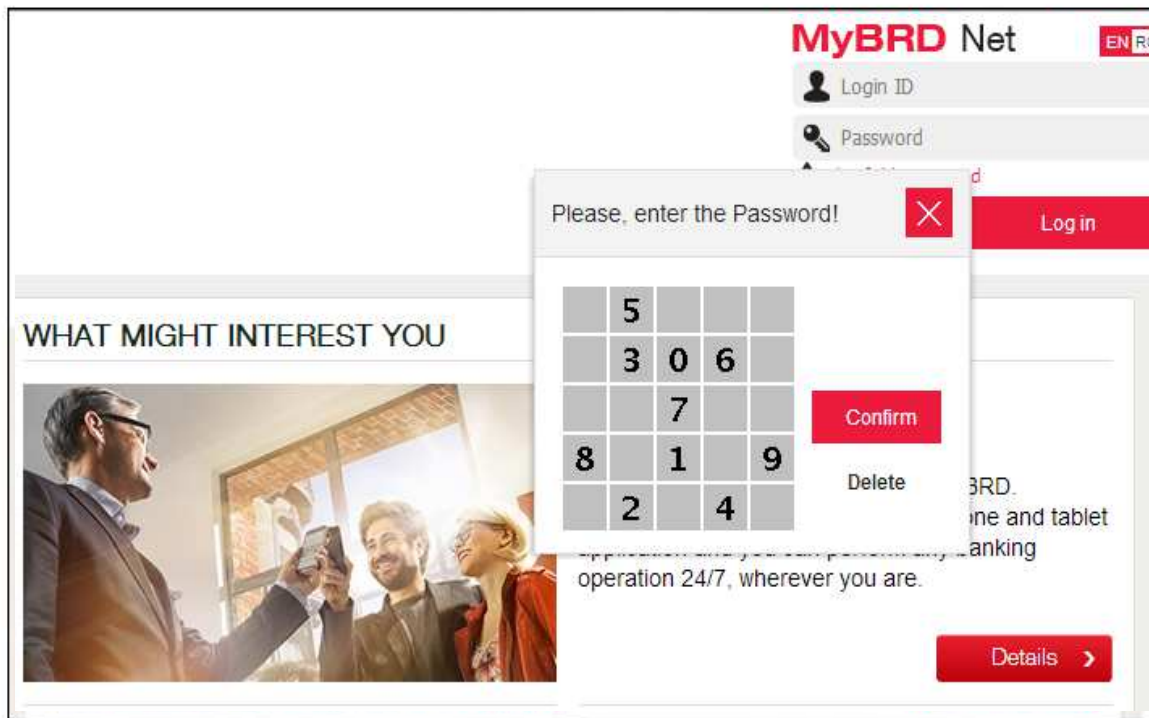

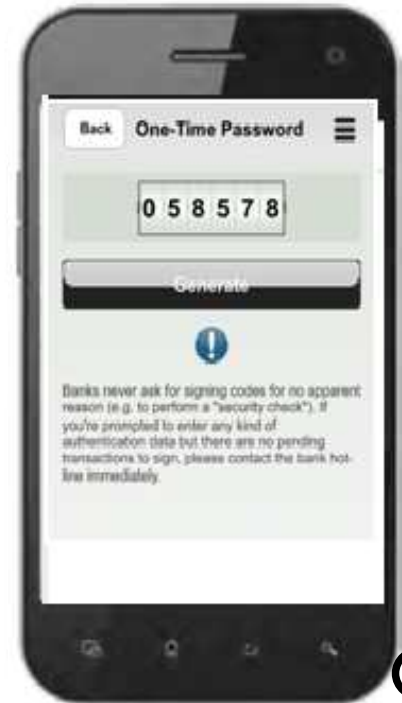

**3.1** If you want to obtain the code required for accessing the **MyBRD Net** service, you must follow a few easy steps:

**STEP 4**

Select the **OTP** option, whereupon the mobile token will generate the unique 6-digit code

**STEP 5**

The displayed code shall be used to access (sign into) **MyBRD Net** along with the user code received from the Bank

## 3.2 When you use the token to sign transactions, according to the complexity of each transaction initiated via **MyBRD Net**, you will use one of the **three options of the mobile Token**.

You will know what option to use if you follow the instructions available in **MyBRD Net** in the **transaction signing** section.

### A. OTP – option 1

#### STEP 1

Select **“Access MyBRD Mobile Token”** and enter the PIN number

#### STEP 2

Select the **OTP** option and by pressing the **“Generate”** button, the mobile token will generate the unique 6-digit code.

#### STEP 3

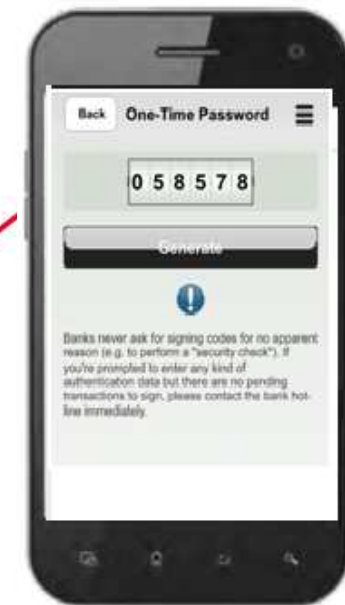

Enter the token response code in the transaction signing screen of **MyBRD Net**

Please enter your password

Foloseste optiunea OTP a Tokenului Toco pentru a genera codul de raspuns.

Cod raspuns: \*

Anula Trimite

**B. Response – option 2**

**STEP 1**

Select **“Access MyBRD Mobile Token”** and enter the PIN number

**STEP 2**

Select the **“Response”** option, whereupon the screen will appear where you must enter the 6-digit code displayed by **MyBRD Net**

**STEP 3**

Press the **“Generate”** button

**STEP 4**

Enter the token response code in the transaction signing screen of **MyBRD Net**

### C. Signing – option 3

#### STEP 1

Select **“Access MyBRD Mobile Token”** and enter the PIN number

#### STEP 2

Select the **“Sign”** option, whereupon the screen will appear where you must enter the two codes generated in the related fields of **MyBRD Net**

Please enter your password

Foloseste optiunea Semnare a tranzactiei tale mobile pentru a genera codul de raspuns.

Parola: 002222, 525602

Cod raspuns: \*

Anulare Terminata

#### STEP 3

Press the **“Generate”** button

#### STEP 4

Enter the token response code in the transaction signing screen of **MyBRD Net**

Please enter your password

Foloseste optiunea Semnare a tranzactiei tale mobile pentru a genera codul de raspuns.

Parola: 002222, 525602

Cod raspuns: \* 872488

Anulare Terminata

**4**

## How to change the PIN number

You may change the PIN number set on enabling the mobile Token at any time. After logging into the application, all you need to do is select the “**Change PIN number**” option. And remember: the new PIN number must be entered twice to be confirmed.

**5**

## How to unblock the mobile Token

Let's assume you have wrongly used the codes generated by the token **3 times in a row** and then you can no longer access the **MyBRD Net** service or sign the transactions. All you can do is unblock it, which requires getting in touch with **the nearest BRD agency**.

The **team at BRD Groupe Société Générale** is at your disposal:

Your consultant in the agency (check the list of agencies on [www.brd.ro/agencies&atms](http://www.brd.ro/agencies&atms))

MyBRD Contact **0800.803.803**, a TelVerde number that is free in the Romtelecom network; **021.302.61.61**, a number which may be called from any telephone network; **\*BANCA (\*22622)**, a number with normal rates which may be called from the Orange or Vodafone networks
