Details (mandatory)

From this screen you can start your payment. The payment form is dynamic and will adapt based on the type of payment the user wants to execute. Follow the next steps for more details.

# **DAYMENT**

Select from the accounts carousel situated on the top of the page, the account from with you want to execute the payment. By default it is selected the favorite account. Input the beneficiary name and then the IBAN from any bank.

To make a payment to your own account, tap on "**Beneficiary's & own accounts**" and then the app will display under this field the acounts owned at BRD toghether with the user's contacts if there are any.

Another option is to tap on "All" button, this action will open a page that also displays the accounts and contacts.

#### **5 PAYMENT WITH CURRENCY EXCHANGE**

When you input a IBAN from another bank, the dropdown to **select the currency** becomes available. This dictates in what currency does the payment takes place. In the next screen you will see the currency exchange details.

# **TREASURY PAYMENT**

When a trasury IBAN is inputted, the app will add another input field to the payment form. **CUI/CNP** of the beneficiary field for identifying the payer.

If you have an **evidence number** for this payment, you can write it in the "**Details**" field.

After you tap the "**Continue**" button, a "**Saving contact as**" pop-up is displayed, meaning the next payment to this beneficiary will be faster and easier.

	Saving contact as
	Cristina Dobrescu
The r	contact will be saved after the payment is done. You can nanage your saved contacts from the <b>Contacts</b> menu.
	Add alias (optional)
	Cristina BRD
