

1 PAYMENTS

The payment button is located on the navigation menu. Taping on it will take the user to the payments page.

2 NEW PAYMENT

Select "New payment" from the transfer options. This option allows all types of payments, except Bill payments.

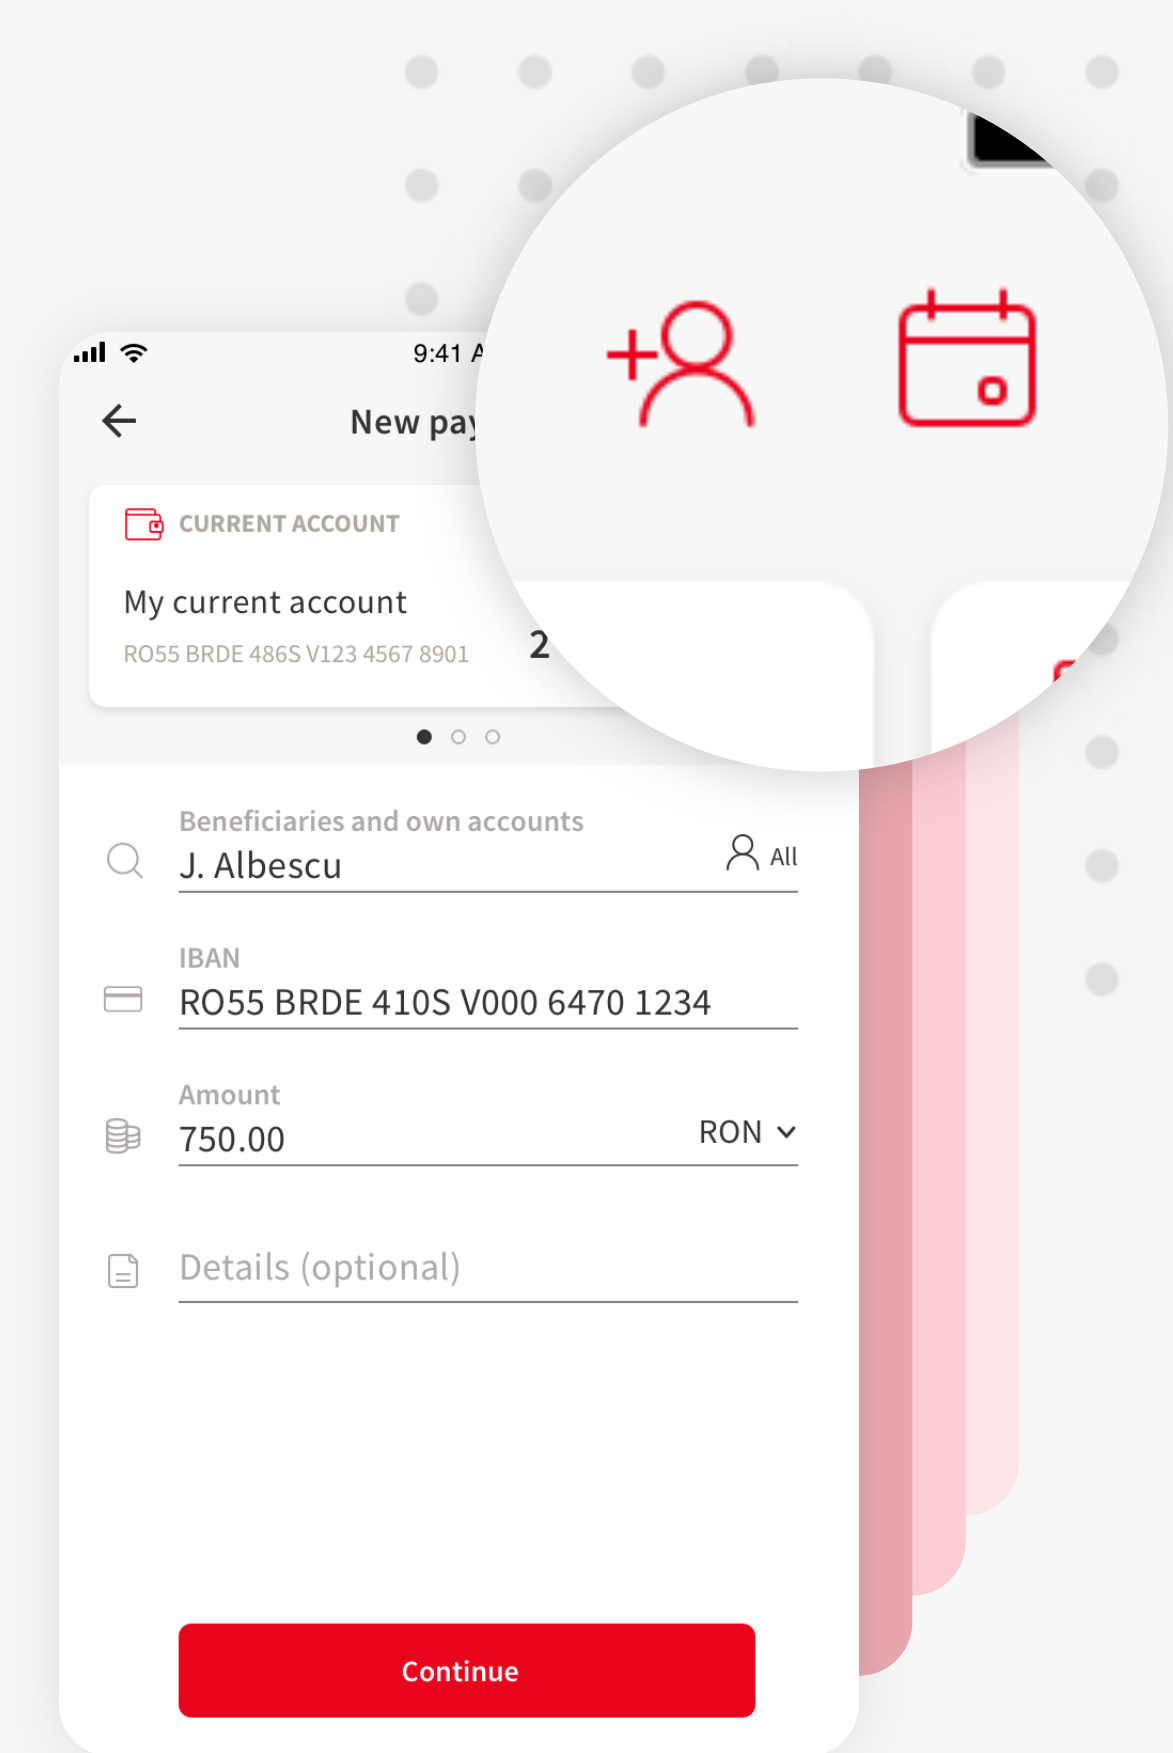

3 THE PAYMENT FORM

From this screen you can start your payment. The payment form is dynamic and will adapt based on the type of payment the user wants to execute. Follow the next steps for more details.

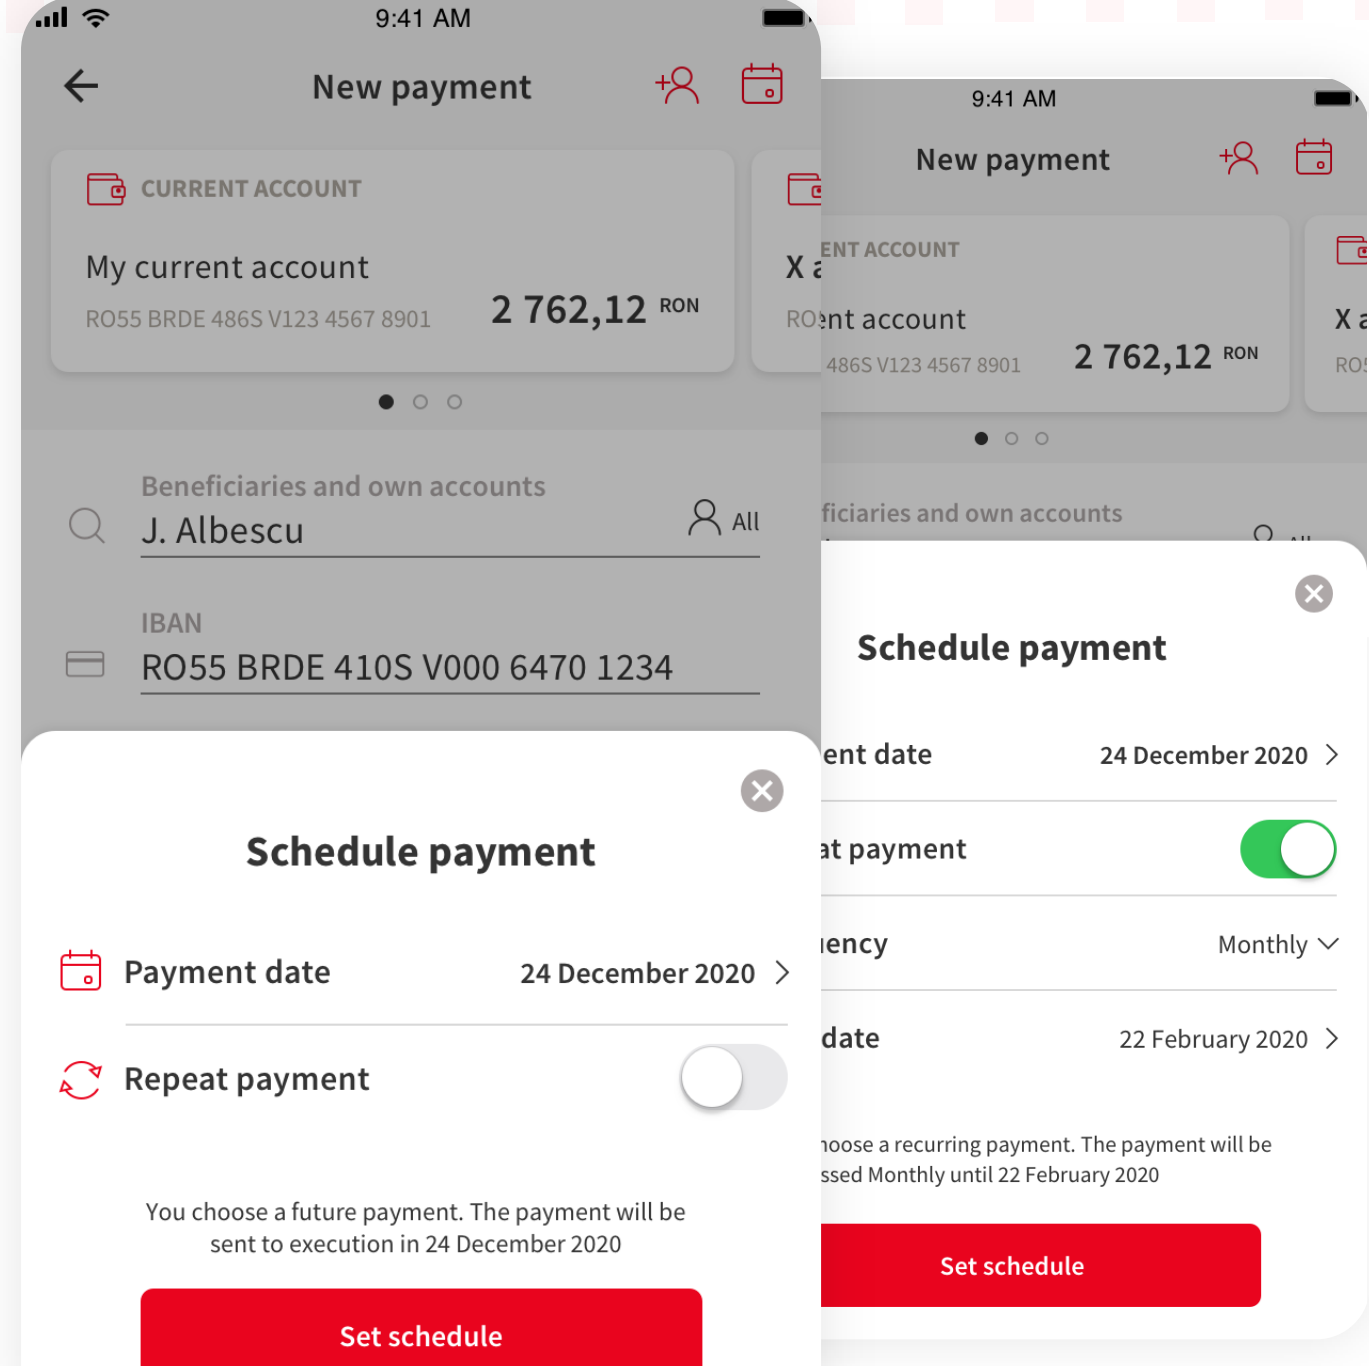

4 TRANSFER

Write the information that it is needed to make the transfer. After you insert the amount and choose the currency, on the top-right of the screen a calendar icon will be displayed. Tap on it and a pop-up will show up, there you will find the information.

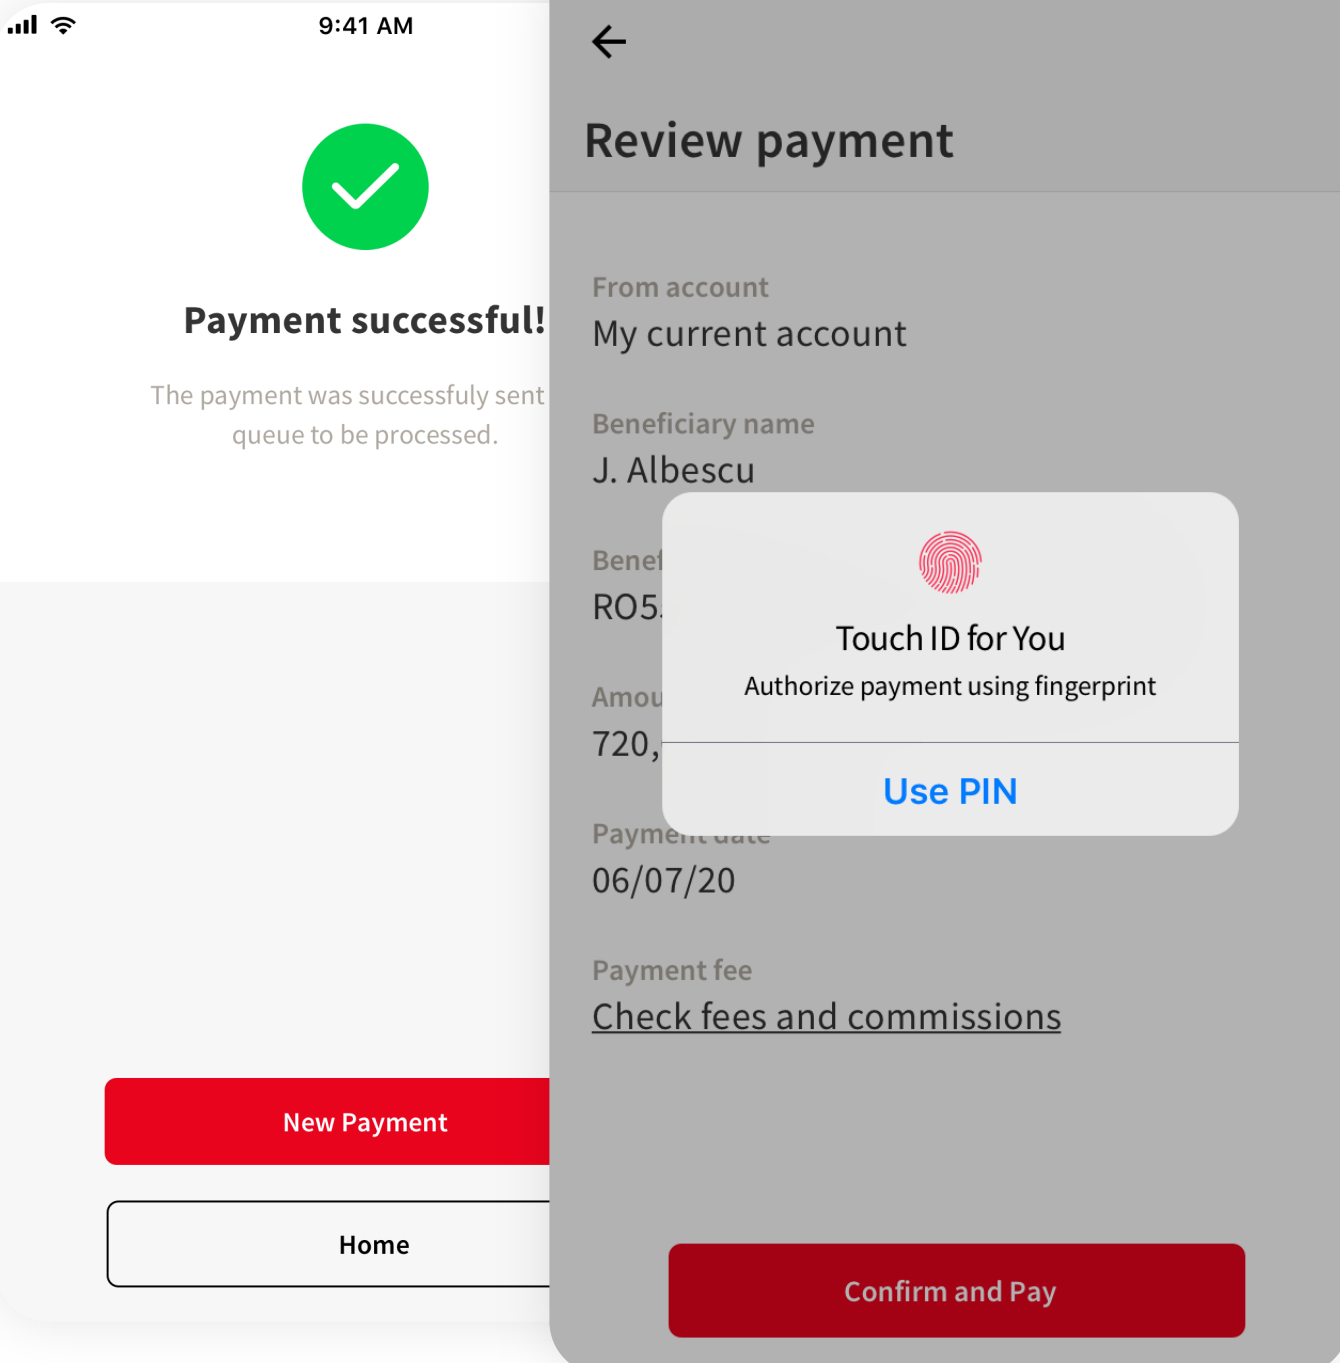

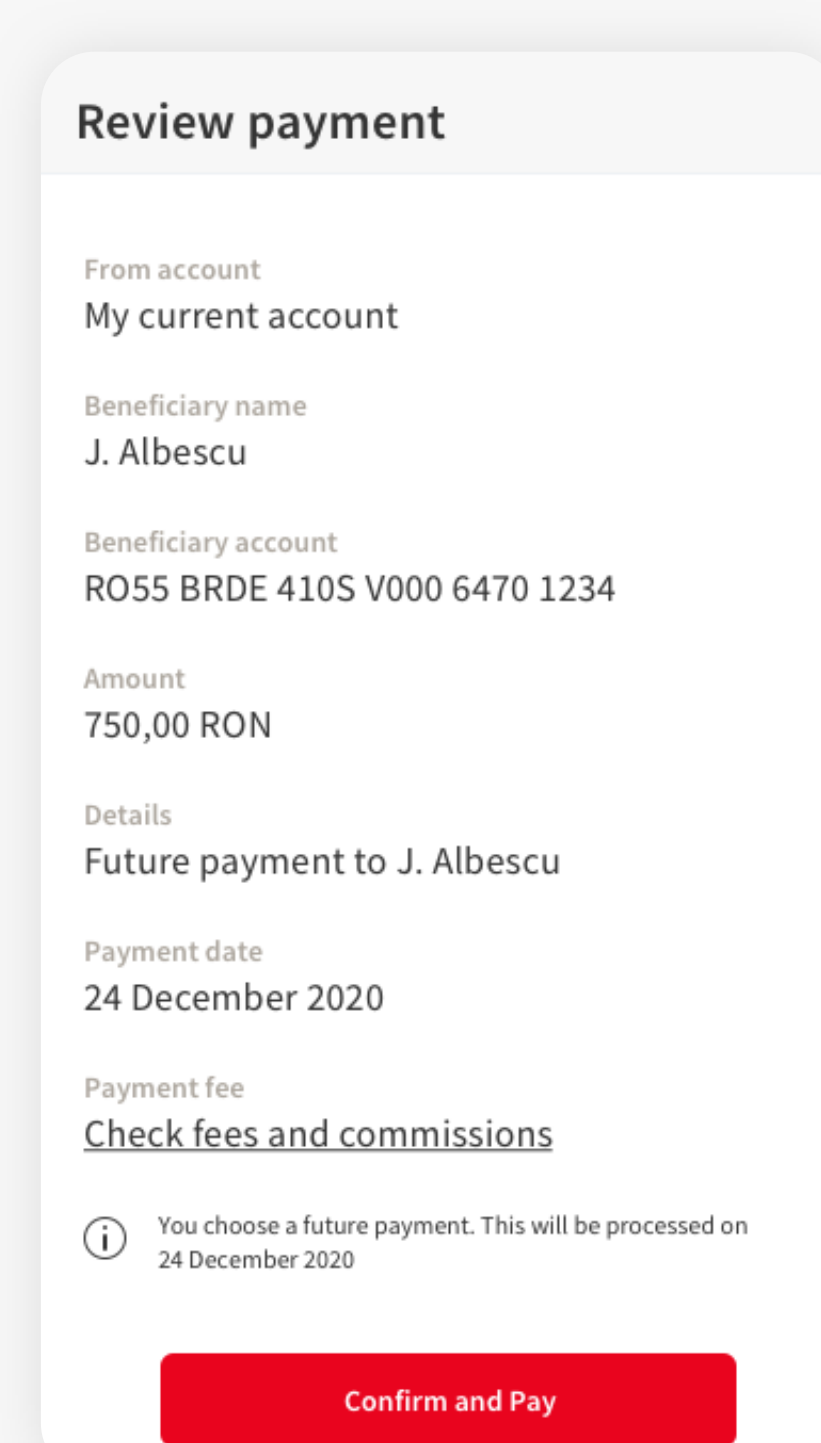

5 FUTURE AND RECURRING PAYMENTS

Once the pop-up is displayed you can start the process. Choose the desired date taping on the "Start date" field to make a future payment. If you are interested in a recurring one, then tap on the toggle to activate it (it has to be green), choose the frequency: daily, weekly or monthly and the final date. After you have completed all the fields, tap the red "Set schedule" button and continue the payment process.

6 PAYMENT DETAILS CONFIRMATION

After the payment form, the user will be redirected to the payment details screen. Here, the app will display all the payment details regarding the type of payment. Press the "Confirm & pay" button and go to the next screen.

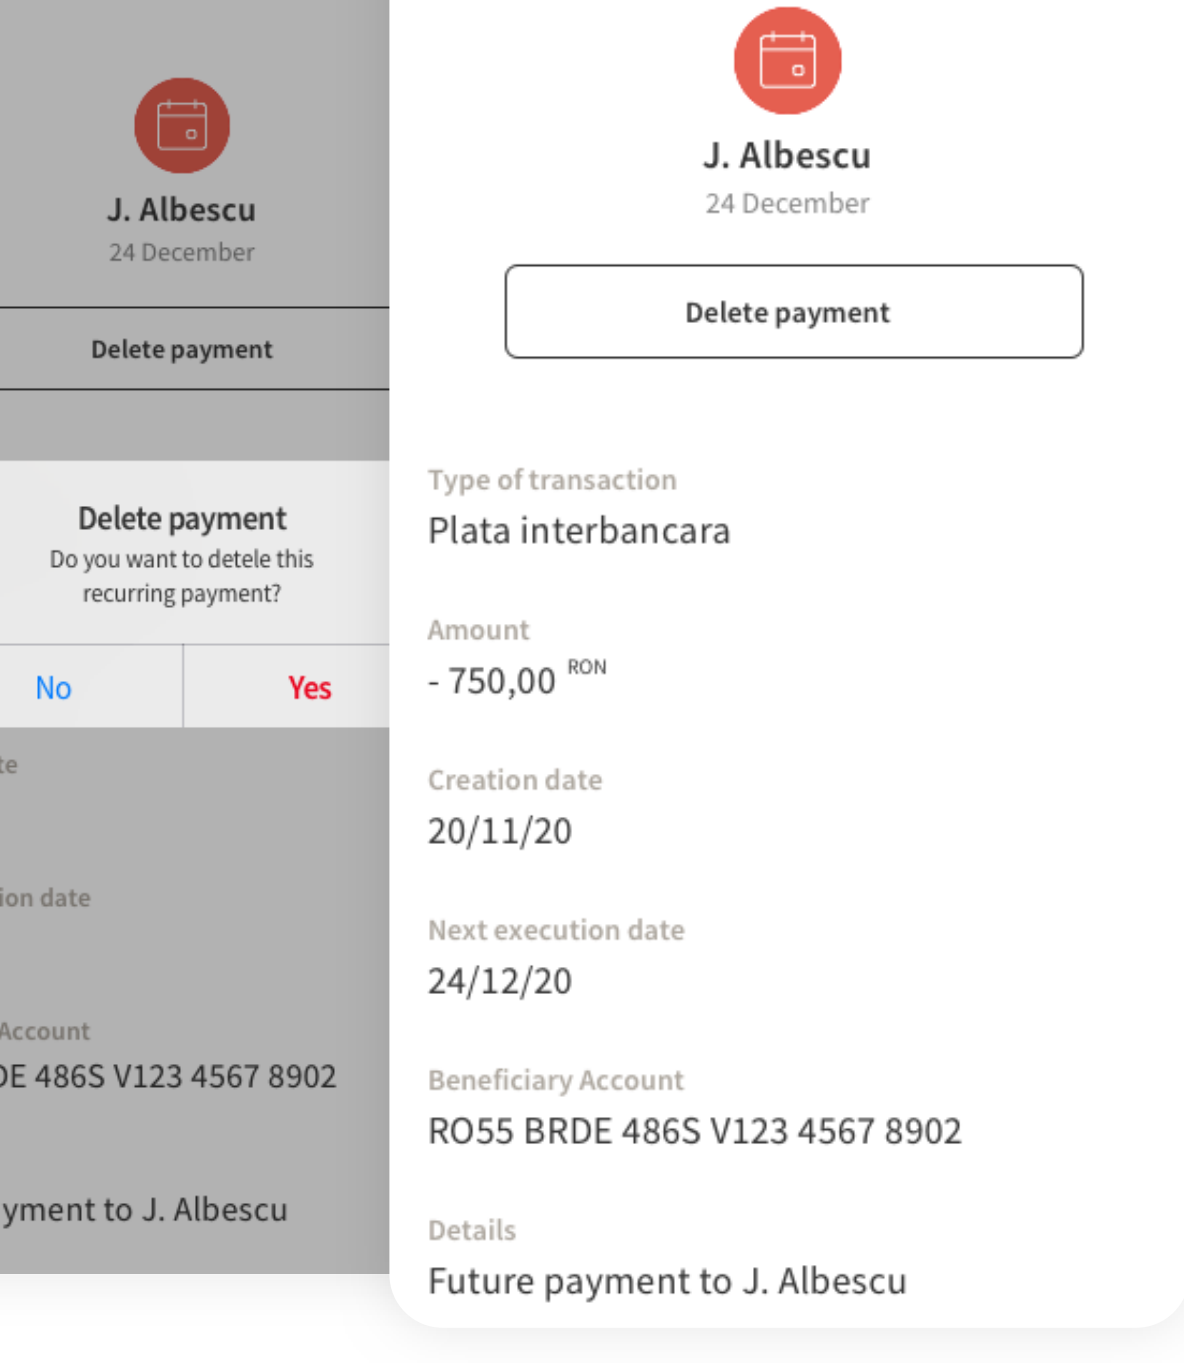

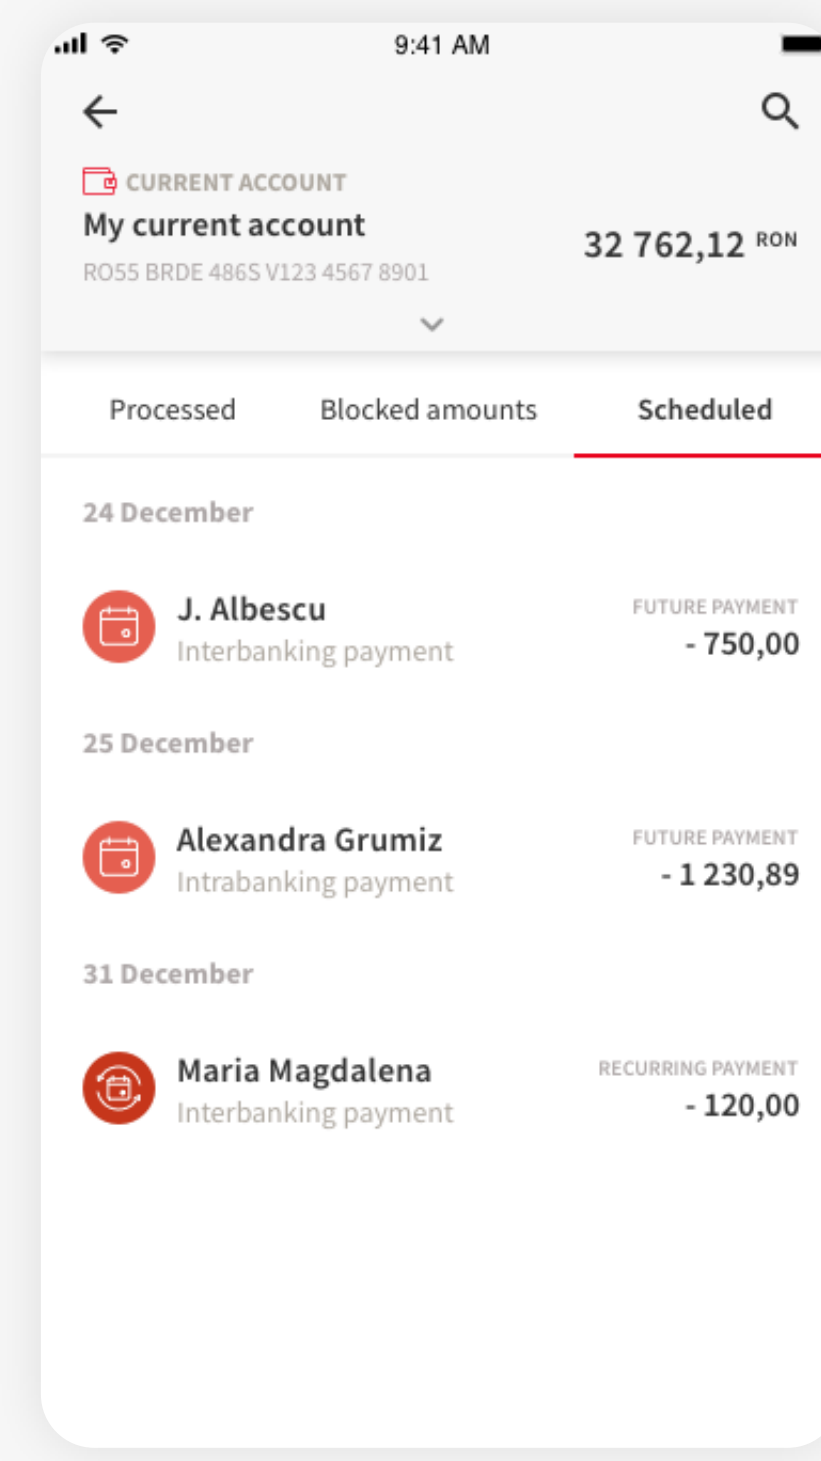

AUTHORISE THE PAYMENT

Authorise the payment using biometrics or the PIN code and the payment is done. The payment will be queued and processed by the bank. You can see the transaction in the transaction history.

8 VIEW FUTURE AND RECURRING PAYMENT

You can see your future and recurring payments in the "schedule payment" tab from the transactions screen. Tap on the third tab and all the transactions will be displayed.

9 DELETE A FUTURE/ RECURRING PAYMENT

To delete a future/ recurring payment you need to tap on the desired payment and from the new screen that have been shown up tap on the red "Delete" button. Now you need to confirm your action by taping on "Delete" button, or "Cancel" button if you changed your mind.
